

LAST SECOND

In short: the entrant will have to recreate, on three tips, the three themes proposed during the competition. All artistic and decorative techniques will be allowed

Jury evaluation criteria	Maximum score	Score achieved
Work definition (sharpness): was the nail art clear and visible? Is the design recognisable and appropriate to the proposed model (5 points per tip)	15	
Use of colours: do the colours used match properly? Are they fluent and well defined? Were they chosen with criteria based on the proposed theme? (5 points per tip)	15	
Difficulty level: is the nail art created on both works simple or complex? Has it been carried out with proficiency and technical ability? (5 points per tip) PLEASE NOTE: the 3D elements will not be evaluated in this parameter	15	
Work finish and neatness: is the product completely polymerised? Are there any visible trace of product, glue or dust? (3 points per tip)	9	
Is the proposed nail art original, imaginative and reflects a great creativity based on the proposed model? (4 points per tip)	12	
Use of decorative materials: they are different, they harmoniously complete the presented works and do not exceed the maximum percentage of 30% of the surface of the tip? (3 points per tip)	9	
There are 3D elements perfectly created and consistent with the model proposed on all three tips	15	
THEME: the entrant will be inspired by the models received during the competition		
Length of competition: 60 minutes		
Total score:	90 points	

PLEASE NOTE:

- Since it is a competition based on the artistic imagination of the entrant, any decorative technique is allowed: 3D, airbrush, acrylic colors, watercolor, pencil, color gel, ...
- Any decorative element is allowed: stones, rhinestones, glitter, studs, holograms, etc, provided they do not exceed the maximum percentage of 30% (calculated on the total surface of the nail tip)
- Embossed elements must not exceed 0.5 cm in height
- Stamping, airbrush masks, moulds, etc. are allowed
- It is not allowed to change the original shape of the distributed nail tips, which must keep their square shape
- Only the use of modelling clay (plasticine) gel and acrylic is allowed to create 3D decorative elements, which must be carried out in place
